

Most common claims in the Retail Industry

Source: Vero New Zealand Claims 2019–2024

Weather events

Damage/loss caused by flood, hail, lightning, snow, storms and wind. This also includes storm surge.

Burglary/Theft

Loss of property due to either a break in to a secure premise or removal of property by someone who has access to it e.g. had keys, worked there etc.

Accidental damage/Loss

Damage, loss or loss of function resulting from a sudden, unintended and unforeseen one-off incident that harms property or its contents.

Malicious damage/Vandalism

Malicious damage is damage caused to insured property which is deliberate and intentional e.g. damage caused by a disgruntled employee. Vandalism is damage caused simply for the sake of causing damage e.g. graffiti or tagging.

Water damage/Burst pipes

Damage caused by leakage or overflow of water from plumbing systems, heating, air conditioning, and refrigerating systems. It also includes rain or snow through open or broken doors/windows, damaged roofs and blocked gutters.

Impact damage

Damage to property caused by collisions, falling objects etc. For example a vehicle colliding with a fence, building or canopy, trees, branches, a transport container or other goods falling onto property.

Damage in transit

Damage to property while it is being transported from one location to another as part of your business activity.

Keep in mind that things like fire – while it may have a lower claims frequency – can be equally, if not more, devastating. That's why the Vero Risk guides cover a wide range of business risks by industry.

Top 3 causes of loss in the Retail Industry

Weather events

We all know how changeable NZ weather can be. From storms and high winds to hail, snow and lightning – these events can all cause damage to property. You can reduce these risks by:

- Ensuring your building is well maintained and weathertight
- Making sure gutters and yard drains are kept clear
- Checking overhanging branches and nearby trees
- Securing outside stock, plant and equipment
- Clearing snow from roofs and gutters (if safe to do so).

Burglary/Theft

Having any property stolen – whether it's personal or owned by your business – can be a distressing experience. You can reduce these risks by:

- Having good physical protection
- Installing good quality intruder alarms and having these monitored
- Having CCTV available
- Deploying regular security patrols
- Having good fire detection on hand (for arson).

Accidental damage/Loss

Accidents happen. But knowing the risks can protect property, equipment and people. You can reduce them by:

- Having a risk-aware culture at your workplace
- Doing regular maintenance checks
- Training your staff
- Introducing clear operating procedures.

Working together to manage business risk

Check out the Vero Risk guides to help identify and manage typical business risks. Focusing on a range of industries and occupations, they provide useful information to help keep your business running and team safe. www.vero.co.nz/risk-profiler
